

YASH SINGH TOMAR

+91 9399480734 | yashsinghtomar17@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Data Science and Analytics graduate with strong skills in Python, SQL, Power BI, Machine Learning, and Data Visualization. Experienced in developing predictive models, analysing large datasets, creating business intelligence dashboards, and extracting actionable insights. Proficient in data cleaning, feature engineering, statistical analysis, and SQL optimization. Passionate about solving business problems through data-driven decision making.

Core Skills

- **Programming & Data Analysis:** Python (OOP, Data Structures), SQL, Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA)
- **Data Visualization & Business Intelligence:** Power BI, Microsoft Excel, Matplotlib, Seaborn, Dashboard Development, KPI Reporting, Data Storytelling
- **Machine Learning & Statistics:** Supervised Learning, Unsupervised Learning, Regression, Classification, Feature Engineering, Statistical Analysis, Model Evaluation
- **Databases & Query Optimization:** MySQL, PostgreSQL, Database Design, Query Optimization, Joins, Aggregations, Window Functions
- **Tools & Technologies:** Jupyter Notebook, Google Collab, Git, GitHub, VS Code, AWS (EC2, S3 – Basics)
- **Data Science Concepts:** Data Preprocessing, Feature Selection, Predictive Analytics, Time Series Analysis, Business Analytics, Basic Deep Learning Concepts

Certifications

- Python Development Training – Integration IT Services Pvt. Ltd., Bhopal
- AICTE Cyber Security Certification
- Cisco Networking Academy Certification
- Google Developer Student Club (GDSC) Certification

Education

Bachelor of Technology (B.Tech), Computer Science Engineering
IES University, Bhopal, Madhya Pradesh
2021 – 2025

Projects

Sales Analytics Dashboard (Power BI & SQL)

- Developed an interactive business intelligence dashboard using Power BI and SQL for sales performance analysis
- Created KPIs, drill-through reports, and dynamic visualizations to track revenue, profit, and customer trends.
- Performed data cleaning and transformation using Power Query and SQL queries.
- Identified top-performing products and regions through exploratory data analysis.
- Automated reporting workflows, reducing manual analysis effort.

Customer Churn Prediction System (Python & Machine Learning)

- Developed a machine learning model to predict customer churn using Python, Pandas, NumPy, and Scikit-learn.
- Performed data preprocessing, feature engineering, and exploratory data analysis on customer datasets.
- Applied classification algorithms including Random Forest and Logistic Regression.
- Achieved over 85% prediction accuracy through hyperparameter tuning and model evaluation.
- Generated actionable insights to support customer retention strategies.

SQL-Based Retail Data Analysis

- Designed and analysed a retail sales database using MySQL and SQL.
- Developed complex SQL queries using Joins, CTEs, Window Functions, and Aggregations for business reporting.
- Performed customer segmentation and sales trend analysis using transactional datasets.
- Optimized query performance for large datasets through indexing and query tuning.
- Generated insights on customer behaviour, product performance, and revenue growth.

Achievements

- AMCAT Certified **Data Processing Specialist**.
- Secured **AIR 1071** in Codathon organized by NIT Bhopal and Coding Ninjas.
- Served as **Junior Under Officer (JUO)** in the National Cadet Corps (NCC).
- Demonstrated leadership, discipline, problem-solving, and team management skills.
